EXPERTS  
— GROUP —

# WHY ARE WE THE EXPERTS IN TECHNICAL TRANSLATION?

Managing thousands pages of documentation consistently and quickly, updating technical content regularly, correcting a single line in 80 languages at once, including special ones like Tagalog and Arabic is undoubtedly not an easy task.

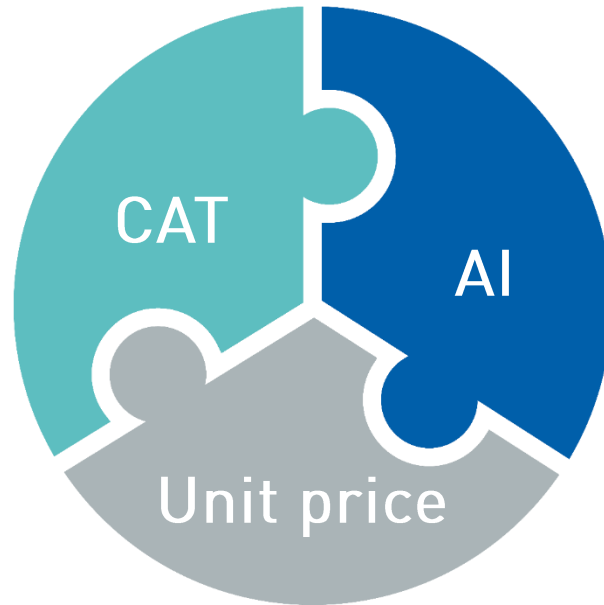

We have built up particular knowledge in the **manufacturing sector** in Germany and Central Europe.

Specializing exclusively in **technical documentation**, we understand the daily challenges of managing technical content, from the most extreme technical issues to the delicate language nuances.

To make your effort with technical translation as **seamless**, fast and effective as possible, we work with the **latest technology** and have a team of experts to deliver your texts in your format exactly how you need it. Without any stress.

# WHY ARE WE UNBEATABLE IN PRICE?

We pass the profits on to you  
generated through tech savings.  
It's all yours!

## Translation Memory recycling

Reusing previous translation content results in significant cost savings. We use the latest market leading TM technology. We maintain your TMs, but **you own them.**

## Neural machine translation

We apply the latest machine translation technologies for segments not found in the existing Translation Memory complemented by the expertise of the best post-editors and post-editing techniques.

## As weight of tech grows, base rates drop

The greater the role technology plays in the pricing, the more significant the role of reusable units in a text, we can reduce the unit prices to lower ranges. **Very low ranges.**

# WHY ARE WE UNBEATABLE IN PRICE?

## No project management fees

We don't charge you for translation-related tasks, like terminology management, translation memory maintenance, project management etc.

## No file engineering fees

We don't charge for file conversion, applying the right CAT tool settings, XML filtering, applying a regular expression to make your text best translatable. It's part of our translation job.

## Low-cost operation

We keep it simple and efficient. We keep our operating costs at a moderate level, and we stick to that.

**No hidden fees. No surprises.**

# WHY ARE WE CHAMPIONS IN SERVICE?

"One of the most important lessons I've learned in my profession over the past 10 years is that everyone prioritizes different aspects in translation. Some value **quick turnaround time**, while others prioritize cost-effectiveness. However, **quality** is generally crucial for everyone.

Through my researches in the field of documentation and terminology I have come to appreciate the remarkable proficiency of the Germans in these areas. For us, it is fundamental to meet or even exceed professional standards. That's why we believe in our ISO-certified **processes** and our 12-step workflow that goes beyond those standards.

What sets us apart is our recognition that not everyone has the same needs, and we **adapt flexibly** to those demands, leveraging the opportunities provided by technology. Let's see if we can find the right solution for you within the triad of time, costs, and quality, tailored to your needs."

Andrea Faludi PhD

Customer Onboarding  
Manager

# QUALITY THROUGH METHODS

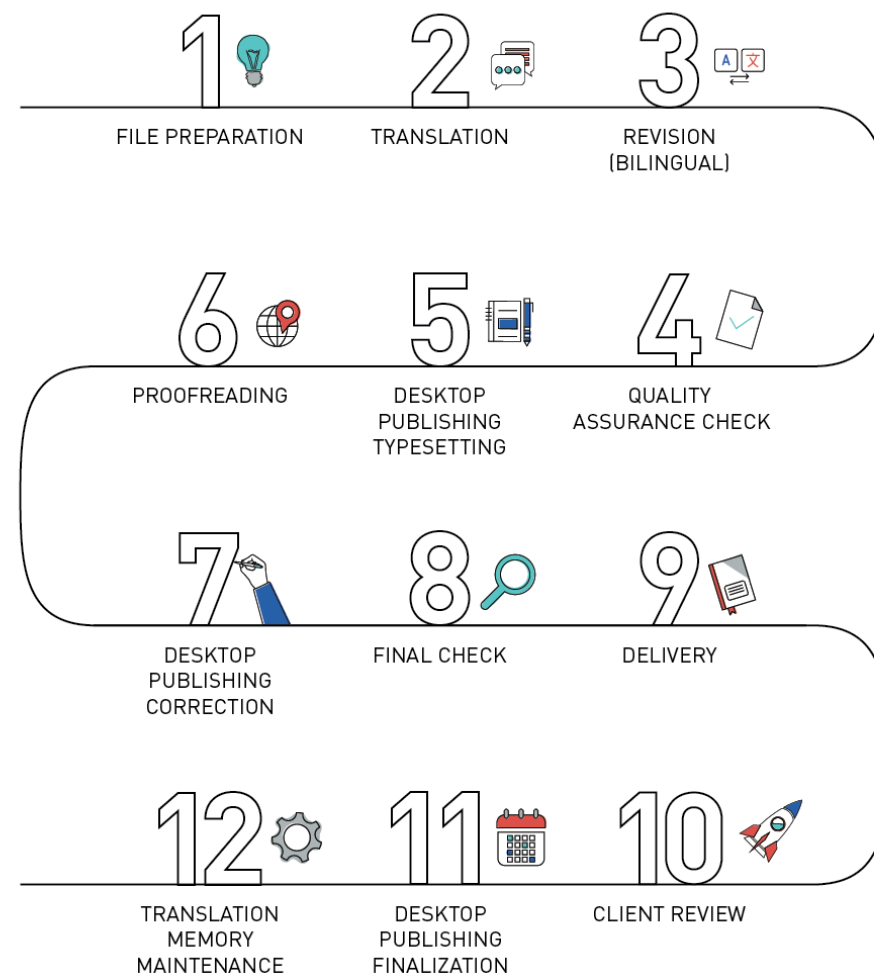

At Language Experts Group, we have devised techniques that not only guarantee **top-notch quality** but also offer our clients the most **streamlined processes** possible.

Our **12-step translation method** is specifically tailored for technical content such as handbooks, manuals, and other materials that require multiple versions.

Our workflow is designed to enhance your experience and often results in time savings. Language Experts Group is renowned for its **impressive turnaround times**.

We recognize that it may not perfectly match your **specific needs**. You might find that you only need a portion of our services or an entirely different approach altogether.

We are more than willing to tailor our workflows to **suit your unique demands**. Don't hesitate to put us to the test and witness our flexibility in action!

# YOUR TECH IS OUR TECH

„Adapting to the dynamic needs of our clients, we have successfully embraced the latest language technology innovations. Just as **automation and AI** have proven their worth in manufacturing, they also play a pivotal role in the translation industry.

**Machine intelligence** complements human creativity while quality is ensured through **industry-specific terminology** and meticulous checklists.

Our custom translation workflow **seamlessly integrates** Content Management Systems, Computer Aided Translation Tools, Terminology Management, Artificial Intelligence, as well as human and automated quality assurance into your existing processes.”

Krisztián Sinkó

Operations Manager

# OVERVIEW OF TRANSLATION SERVICES

## Translation and Localization Services

- Translation
- Machine Translation
- Transcreation

## Quality-Assurance Services

- QA check
- Terminology Management
- Translation Memory Maintenance

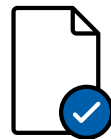

## Desktop Publishing and Printing Services

- Desktop Publishing
- Printing

## Editing Services

- Revision
- Proofreading
- Post-editing

## Audiovisual Translation Services

- Subtitling
- Voice-over

## ABOUT US

„Language Experts Group was founded on the principles of professionalism and a deep understanding of the power of effective communication across cultures. Our journey began in Budapest, Hungary, where our core team, comprised of dedicated professionals in project management, desktop publishing, and business administration, works tirelessly to ensure the success of every project we undertake.

Our expansion into international markets has been marked by the establishment of a branch office in Tokyo, Japan, and a sales office in Cologne, Germany.

This global footprint allows us to provide our clients with the highest level of service, no matter where their business takes them.”

# TRUST US

## EXPERTS IN TECHNICAL TRANSLATION.

We are not only adept at following industry trends but also take pride in shaping them. This commitment to innovation led us to become founding members of TEKOM Hungary, reflecting our dedication to advancing the **ISO-standards** of technical documentation and translation within the market.

## UNBEATABLE IN PRICE.

It sometimes surprises new clients that we dare offer this degree of bluntness about money, but we are actually proud of offering such outstanding prices on this level of quality. As we have proven many times, we are the **best in price** and if you do not believe this, we would love to demonstrate it to you.

## CHAMPION IN SERVICE.

Our local teams manage client accounts and ensure a degree of seamlessness that has been designed to make this process as **easy as possible** for our clients.
